NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

Filing Date Granted

Items Required To Avoid Abandonment:

An application number and filing date have been accorded to this application. The item(s) indicated below, however, are missing. Applicant is given **TWO MONTHS** from the date of this Notice within which to file all required items and pay any fees required below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

- This application is objected to because it contains a data file on CD-ROM/CD-R, however, the transmittal letter does not list for each compact disc, the machine format, the operating system compatibility, a list of files contained on the compact disc including their names, sizes in bytes, and dates of creation, plus any other special information that is necessary to identify, maintain, and interpret the information on the compact disc as required by 37 CFR 1.52(e)(3). A statement listing the required information is required. Additionally, the disc(s) is not identified in the paper portion of the specification with a listing of all of the files contained on the disc. When portions of an application are contained on a compact disc, the paper portion of the specification must identify the compact disc(s) and list the files including name, file size, and creation date on each of the compact discs. See 37 CFR 1.52(e). Applicant(s) are required to amend the specification to identify each disc and the files contained on the disc including the file name, file size, and file creation date.

**REPLY TO NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL
APPLICATION**

Mail Stop Missing Parts
Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This is a reply to the Notice to File Missing Parts of Nonprovisional Application, mailed June 13, 2005.

The Notice to File Missing Parts of Nonprovisional Application is in error. The Notice to File Missing Parts of Nonprovisional Application stated that the application was objected to because it allegedly contained a data file on CD-ROM/CD-R, and the transmittal letter failed to comply with 37 C.F.R. § 1.52(e)(3). Additionally, it was stated that the disc was not identified in the paper portion of the specification pursuant to 37 C.F.R. § 1.52(e).

However, the compact disc submitted was not a data file that falls within the requirements of 37 C.F.R. § 1.52(e)(3) or that was required to be identified in the paper portion of the specification pursuant to 37 C.F.R. § 1.52(e). The compact disc submitted was not part of the application itself. Rather, the compact disc was merely a computer readable form for the submission of a sequence listing under 37 C.F.R. § 1.823. The contents of the computer readable form are the same as that of the paper copy of the sequence listing which was submitted with the application, which meets the requirements of 37 C.F.R. § 1.823. The use of a compact disc as a computer readable form for the submission of a copy of the sequence listing is specifically permitted under 37 C.F.R. § 1.824(c).

Accordingly, the submission of the compact disc as a computer readable form for the sequence listing is not a "data file" that falls within the requirements of 37 C.F.R. § 1.52(e). The compact disc that contains the sequence listing is being submitted for exhibit purposes only.

Therefore, no amendments to the specification are needed, inasmuch as a paper copy of the sequence listing has already been submitted and the contents of the paper copy and the computer readable form are identical. Accordingly, the Notice to File Missing Parts of Nonprovisional Application should therefore be withdrawn and the above-identified application be processed for examination on the merits.

If any issues remain, the Office of Initial Patent Examination is respectfully requested to telephone the undersigned at (858) 200-00581.
